

ASSISTED REPRODUCTIVE LABS, LLC
9817 N. 95th Street Bldg I Suite 105
Scottsdale, AZ 85258
(602) 765-2229

TO ALL PATIENTS WHO HAVE COVERAGE FOR IVF:

This is to advise you that since our relocation to our new office, the Assisted Reproductive Lab (ARL) is a separate entity and no longer a part of IVF Phoenix, and is **NOT** contracted with an Insurance Company.

If you wish to utilize your insurance benefits for the entire IVF/ART charges, it is advised that you may contact another center that might have a lab that is contracted with your insurance carrier.

This means that even though you may have coverage for IVF, the lab charges will be due from you and are **NOT** billed to any insurance company by our office. ARL will not provide assistance or intervene in billing to your insurance. ARL will supply you with a statement for your insurance company for you to submit to your insurance company for reimbursement purposes. IVF Phoenix is **NOT** responsible to bill the charges of ARL.

Payment is due and payable at the time of your EMB/ baseline ultrasound for the IVF cycle.

The amount due from the patient for the ARL portion is \$4200.00, plus \$1500.00 for ICSI if needed, an additional \$750.00 for cryopreservation (freezing), and if applicable and additional fee of \$400.00 for assisted hatching.
